

Your Partner for Robotic Integration

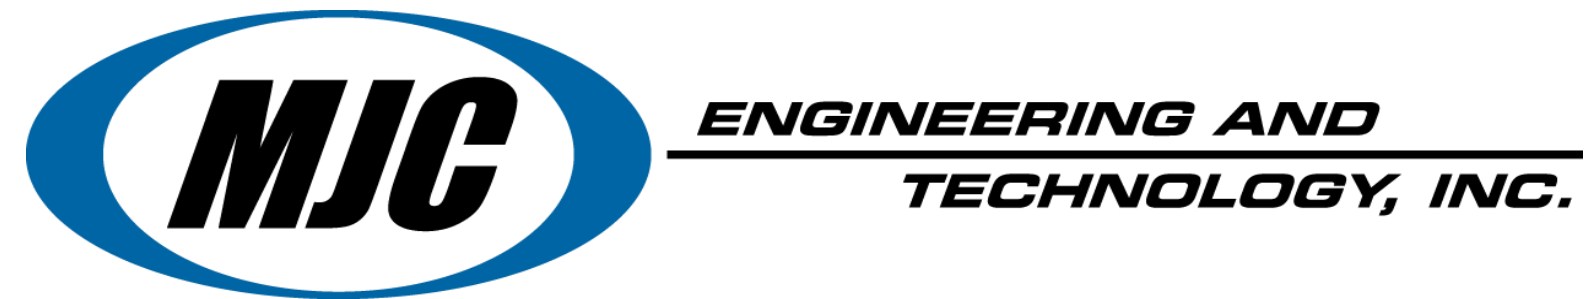

- MJC is an robotics system integrator providing automated solutions for a variation of industrial applications.
- Our team specializes in consulting, system design, project management, maintenance, and installation, while sourcing the best equipment and automation technology.
- With many years experience in the design and integration of a wide variety of robotic systems, we will integrate or design the robot that meets your budget, speed, load, and precision requirements.
- MJC's team of engineers has over 100 years of combined experience working with robots and automation in a variety of industries.
- We take great pride in providing exceptional service and flexibility to our customers.

Highlights of Robotic Workcells and Autonomous Guided Vehicles by Clearpath

- Labor cost savings
- Maximize quality and productivity
- Eliminate operator injury
- Robotics applications can perform in a lights out manufacturing environment
- Meets safety standards
- Adds reliability and cadence to your material flow
- Reclaim unproductive floor space
- Custom implementations and workflows
- Industry 4.0 compatible

Robotic System Integrator

**ENGINEERED
PERFECTION**

US Manufacturer of High Quality CNC Spinning Equipment

MJC Engineering is an officially recognized and preferred Robotics integrator.

Advantages of Robotic Systems: ➤ Increase Quality & Productivity ➤ Eliminate Operator Injuries
➤ Reduce Floor Space Requirements

APPLICATIONS:

- Machine Tending
- Material Handling
- Machine Load/Unload
- Palletizing
- Robotic Packing
- Pick and Place
- Assembly
- Inspection
- Heating
- End of Arm Tooling

We primarily use all robotic products from **Fanuc**, **ABB** and **Kawasaki**.
